Help make walking and rolling safer for kids  
in Modesto 's Airport Neighborhood!

Join us to learn about Safe Routes to School in Modesto's Airport Neighborhood! During this workshop you will hear about ways to make walking and rolling to and from school safer, convenient and fun. Together with other community members, parents, students, city representatives and school staff, you will identify barriers to walking and rolling and opportunities for improvements. You will leave the workshop ready to work with your community partners in the Modesto Airport Neighborhood's Safe Routes to School program.

**Language interpretation  
available upon request**

*Please wear comfortable  
shoes for our walk  
during the workshop!*

*Lunch will be provided.*
