

## **Community Pedestrian and Bicycle Safety Training**

*Application Deadline: Open until all slots are filled*

We invite you to apply to bring a Community Pedestrian and Bicycle Safety Training (CPBST) to your community. We acknowledge the challenges our communities face at this time and are immensely grateful for your dedication to improving pedestrian and bicyclist safety in our ever-changing environment.

### **ABOUT THE PROGRAM**

The Community Pedestrian and Bicycle Safety Training (CPBST) program is a joint project of [California Walks](#) (Cal Walks) and [UC Berkeley Safe Transportation Research and Education Center](#) (SafeTREC). Funding for this program is provided by a grant from the California Office of Traffic Safety (OTS) through the National Highway Traffic Safety Administration (NHTSA). The CPBST program year is from October 2020 - September 2021.

The CPBST program works with local residents and safety advocates to develop a community-driven action plan to improve walking and biking safety in their communities and strengthen collaboration with local officials and agency staff to make California a safer and more pleasant place to walk and bike. This free training is customized for your community and consists of walking and biking assessments, Safe System overview and strategies, and an action planning activity to prioritize community programs and infrastructure projects. All trainings will be hosted remotely. If conditions change, we will assess the possibility of an in-person training.

Eligible program applicants include:

- Community-based organizations and coalitions;
- Schools, school districts; and
- Local city and county agencies, tribal governments.

To access Summary and Recommendation reports from past workshops, check out our [interactive map of the CPBST Program](#).

**SECTION 3: WORKSHOP PLANNING**

During which months would you prefer to host a virtual CPBST workshop? *(check all that apply)*

- February/March 2021
- June/July 2021
- April/May 2021
- August/September 2021

Each workshop convenes a Planning Committee to tailor the scope of the workshop and help implement action plans developed during the training. The Planning Committee is made up of a core group of 5-10 residents, advocates, community organizations, schools/school districts, and local government and agencies representatives (e.g., transportation, planning, public health, elected officials).

Please provide the contact information for 5-10 potential planning committee members. Potential members will only be contacted after your community is selected as a workshop site.
