The Federal Highway Administration (FHWA) designated seven California cities as Focus Cities due to their high rates of pedestrian and bicycle crashes. The University of California, Berkeley Safe Transportation Research & Education Center (SafeTREC) and California Walks offer free targeted technical assistance to the California Focus Cities to support their pedestrian and bicycle safety efforts.

**NEIGHBORHOOD NEEDS ASSESSMENTS & ASSET-MAPPING**

Inform planning, policy, and decision-making processes using qualitative and quantitative methods:

- Walking Assessment
- On-Street Biking Assessment with League of American Bicyclist Certified Instructors (LCIs)
- Safe Routes to School Assessment
- Safe Routes for Seniors Assessment
- PhotoVoice and VideoVoice Training
- Pedestrian-Scale Lighting Assessment
- Street Story
- High Injury Network Map

**COMMUNITY LEADERSHIP & TRAIN-THE-TRAINER WORKSHOP SERIES**

Community residents are experts in their own lived experiences. Our services for residents focus on transferring technical skills to communities through the following workshops:

- How to Conduct a Walking/Biking Assessment
- How to Conduct Pedestrian and Bicycle Counts
- Conducting Outreach, Trainings, and Workshops in a Virtual Setting
- Engaging Agency Staff and Elected Officials

**CAPACITY BUILDING**

Expand the capacity of municipal staff, community-based organizations, residents, and elected officials with the following:

- Community Education & Engagement Training
- Action Planning Workshop
- Grant Application Assistance
- Workplan Development
- Transportation Injury Mapping Systems (TIMS) Training
- Collision Data Analysis
- Safety Research and Literature Reviews

We offer many of these trainings in a virtual setting and can support your efforts to take or organize community workshops online!
