

My community needs:

A program to organize community stakeholders and implementing agencies around pedestrian and bicycle safety and learn strategies to improve safety outcomes

A technical safety assessment to improve road safety for all users

Are you interested in a program tailored to the needs of Spanish-speaking communities?

What is your role?

Yes

No

Community-based group or non-implementing agency*

Implementing agency

Comunidades Activas y Seguras (Active and Safe Communities) Program (CAyS)

Community Pedestrian and Bicycle Safety Training Program (CPBST)

What is your main concern?

Pedestrian and bicycle safety

Speed management

Complete Streets Safety Assessments

Safe Speed Limits Assessments (Safe Speed Limits)***

*Community Based Organizations (CBOs) and Non-Governmental Agencies (NGOs) only qualify for the CPBST and CAyS programs.

**The CSSA is open to City and County implementing agencies, public schools, and university campuses with a population greater than 2,500. The CSSA is also open to Tribal governments.

***Safe Speed Limits is only open to City and County implementing agencies at this time.

Not sure which program is right for your community?
