## Visiting Scholar Program @ UC Berkeley SafeTREC

The goal of the Visiting Scholar Program at the UC Berkeley Safe Transportation Research and Education Center (SafeTREC) is to effectively tap UC Berkeley's diverse community of experts in public health, transportation engineering and planning, vision, human factors, technology and other disciplines to stimulate innovative research that addresses traffic safety issues around the globe.

### The Visiting Scholar Program offers you:

- a dynamic, creative work environment with intellectual freedom
- mentorship and preparation for your career goals
- guidance and support toward publishing in leading academic journals
- present your work in the weekly SafeTREC seminar
- opportunities for collaboration with peers from many countries and with leading traffic safety researchers worldwide

### Requirements:

- financial support for the visiting scholar's travel, accommodation, and campus fees
- a proven ability to work independently and collaboratively
- a demonstrated interest in traffic safety research
- evidence of the ability to think creatively

### Application Materials:

1. Curriculum vita.
2. Statement of research interests including a short description of the research you would like to pursue and why (max. 1 page).
3. Description of interest in SafeTREC that describes your potential contribution to SafeTREC and explains the potential impact of SafeTREC on your research. Consider addressing the following: What kind of knowledge or experience would most improve your future research? What type of knowledge or experience would you contribute to SafeTREC? (max. 1 page)
4. A copy of one paper you have written in English, either published or unpublished (can be a class paper).
5. A description of your funding source or potential funding sources.
